FOR IMMEDIATE RELEASE

GREENHOMES AMERICA IS RECOGNIZED WITH A 2010 HOME PERFORMANCE WITH ENERGY STAR® CENTURY CLUB AWARD

Irvine, CA – April 17, 2010 – GreenHomes America is pleased to announce that it has received a 2010 Home Performance with ENERGY STAR Century Club Award from the U.S. Environmental Protection Agency and the U.S. Department of Energy. This is the second consecutive year GreenHomes America has received this honor.

This Century Club Award recognizes GreenHomes America as one of a select few that have improved the energy efficiency of a minimum of 100 homes in the past year through the Home Performance with ENERGY STAR Program. Home Performance with ENERGY STAR offers homeowners a comprehensive, whole house approach to improving energy efficiency and comfort, while saving money on utility bills and helping to protect the environment.

-- More --

Chandler von Schrader, with the ENERGY STAR Program at EPA, announced “2008 was the first year we recognized contractors in our program that have performed over 100 energy efficient installations. These Century Club Contractors are industry leaders committed to using building science to maximize energy savings, comfort and sustainability. By making our existing housing stock more energy efficient, these Century Club Contractors are at the forefront of our nation’s efforts to reduce pollution generated from power plants that provide energy for our communities.”

As a participant in the Home Performance with ENERGY STAR program, contractors receive specialized training and are equipped with diagnostic tools to inspect homes inside and out to determine where improvements are needed. Rather than focusing on a single problem, like an old heating or cooling system, not enough insulation in the attic, or leaky windows, they look at how improvements throughout a home can work together to give homeowners the best results. Depending on the improvements selected by the homeowner, saving 20% or more on their annual utility bills is possible.

“This is the second year in a row we have received this honor and we are proud to be one of only 40 contractors in the country to receive this award this year,” said GreenHomes America President Brett Knox. “Our employees are dedicated to making our customers more energy efficient and saving them money on their utility bills. Home Performance with ENERGY STAR and the whole-home approach helps us to meet and exceed their expectations every time.”

About ENERGY STAR

ENERGY STAR was introduced by the U.S. Environmental Protection Agency in 1992 as a voluntary market-based partnership to reduce greenhouse gas emissions through increased energy efficiency. Today, in partnership with the U.S. Department of Energy, ENERGY STAR offers businesses and consumers energy-efficient solutions to save energy, money and help protect the environment for future generations. More than 12,000 organizations are ENERGY STAR partners committed to improving the energy efficiency of products, homes, buildings and businesses. For more information about ENERGY STAR, visit www.energystar.gov or call toll-free 1-888-STAR-YES (1-888-782-

About GreenHomes America

GreenHomes America, LLC (www.greenhomesamerica.com) is the largest industry-accredited, single-source provider of Home Performance Contracting in the U.S. Through offices nationwide, GreenHomes America offers an award-winning home improvement service that significantly enhances the comfort, energy efficiency, and air quality of existing single-family homes. GreenHomes America delivers a full line of services including comprehensive home assessments; windows and doors; high-efficiency furnaces, boilers, and water heaters; insulation and air-sealing; indoor air quality; and solar systems. GreenHomes America also helps homeowners conserve energy and reduce carbon emissions to help them do their part to protect the environment and reduce the country's dependence on foreign oil. GreenHomes America works with *Home Performance with ENERGY STAR*®, is a Building Performance Institute (BPI) accredited organization, and is a founding member of Efficiency First. GreenHomes America is a division of The Linc Group (www.thelincgroup.com).
